SUMMARY

Motivated FullStack Python Developer with 6 months of professional experience in Python and Django web development. Skilled in building scalable web applications, designing REST APIs, and managing relational databases. Passionate about writing clean, efficient code and delivering practical, real-world solutions. Quick learner with strong problem-solving ability and team collaboration skills.

EDUCATION

- **AG Arts and Science College, Tiruppur** 2024
BBA CA GPA: 7.98

TECHNICAL SKILLS

- **Programming:** Python (Core, OOP, Exception Handling, Collections, Generators, Functional Programming), HTML, CSS, Bootstrap, JavaScript
- **Frameworks:** Django (Models, Views, Templates, Middleware, Admin, Authentication, ORM), Django REST Framework (API development, Serializers, ViewSets, CRUD, JWT Auth)
- **Database:** MySQL (Queries, Joins, Indexing, Transactions), SQLite
- **Libraries:** Pandas, NumPy, Matplotlib, OpenCV, MediaPipe, Requests, JSON
- **Tools:** Git, GitHub, Postman

EXPERIENCE

- **M7 Corporation** FullStack Python Developer Intern
- **Koko Material – Django-Based E-Commerce Platform**
Developed a multi-role (Admin, Dealer, Employee, Client) e-commerce and material management system using Django and Django REST Framework. Implemented product cataloging, stock management, GST-enabled quotations, order processing, referral rewards, and role-based dashboards. Integrated secure authentication using Django Allauth and managed production database with MySQL.

PROJECTS

- **Marriage Hall Booking Website**
Built a single-venue booking platform with hall details, pricing, gallery, event packages, and booking management. Implemented admin panel for schedule management and contact handling.
Tech Stack: Django, Python, HTML, CSS, Bootstrap, MySQL
- **BirdyBazaar – Multi-Vendor Bird Marketplace**
Developed a multi-vendor marketplace where vendors can upload bird details (images/videos), and customers can signup/login to view and filter products. Implemented full CRUD operations for products, customers, and vendors with a role-based admin dashboard reflecting frontend changes in real-time.
Tech Stack: Django, Python, Django REST Framework, MySQL, HTML, CSS, Bootstrap

CERTIFICATIONS

- Python FullStack IBM Certificate (2025) – SLA Institute, Chennai
